ADAPTABILITY NEVER SEEN BEFORE!

Total integration

Disappear! That's the keyword that has driven the design of this new multimedia furniture. Kaméléo from Erard Pro manages to hide all peripherals and cables while blending into your decor. Kaméléo accommodates a wide screen up to 75" or two 65" screens.

Outstanding modularity

Kaméléo offers the ability to column-stack two technical storage units. A bigger module at the bottom and a top unit with a directly connectable front. No more lost time... Start the show!

A choice of customisable fronts

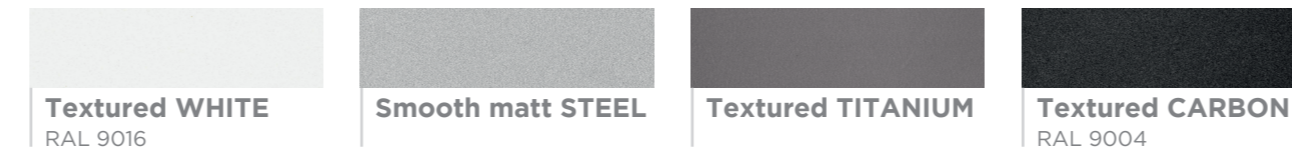

Kaméléo has been designed to blend into your decor by offering vast freedom of choice: four colourways of panels and an infinite number of front trims give you limitless combinations of colours and materials. We offer a wide selection of fronts coordinatable with your decor, but here are just a few suggestions.

Kaméléo in brief

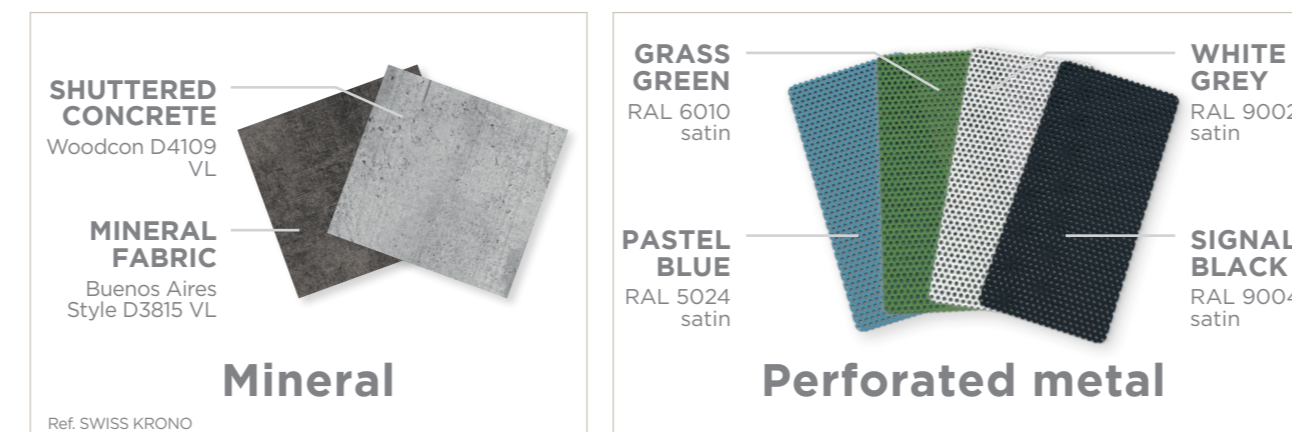

- Modular and customisable design
- Peripherals integrated in the boxes
- Cables inside the column
- Front-facing connections
- Fast and simple to assemble
- Delivered pre-mounted for reduced installation time
- Flat base permits use of a touchscreen
- Ventilation by fanless natural convection
